AP Physics C
Summer Assignment

Google Classroom Code: jd69nf

This year, the goal is to have completed the first Unit for the first week of September. I will be making a series of videos and google slides for you to learn the material. There will be google forms for you to check your understanding as well as worksheets. Everything will be posted on google classroom. The test will be the first week back in September and a more exact date will be posted as schedules are finalized. Everything will be posted no later than the first day of August.

Textbook
If you would like a textbook, come to room B-121 to sign out a textbook for the summer and next year. I will post page numbers with the lectures so that you can follow along.

Due Date
Everything needs to be done by the first day back. The assignments will be graded individually as homework, quizzes, and labs.

What will be on the test?
You are going to be tested on Kinematics in one dimension, two dimensions, and projectile motion. I will also be posting videos on math skills that you will need throughout the year which will show up on the test as well. I will be posting review questions to prepare you for the test.

Any Questions or Concerns
