At Mount Olive High School, Marauder Madness offers students the opportunity to experience the world of television production in a hands-on, professional atmosphere.

Because of their commitment and dedication, students take time out of their busy schedules to provide our school with an insightful, informative, and educational morning broadcast.

Students create and edit special features. In addition, they advertise special events such as athletic competitions, school fundraisers, and club activities. Students also provide sports reports and weather forecasts.

Crew members use and strengthen the skills they’ve learned through their enrollment in the Television Production Program.

Although the students begin work in the studio at the crack of dawn, they enjoy every minute of what they do and give it their all, which is reflected in their professional and polished broadcasts.
