US II and the World

Directions: 1. Print out the blank outline maps provided.
   2. Use the colors listed and the list provided of regions, countries, cities, water bodies, and land
      formations to correctly label the maps.
   3. Use the maps to study the regions of the world where the items you labeled are located.

Purpose: You are labeling these maps yourself, instead of using pre-labeled maps to study, for a few
reasons: 1. This will serve as a useful tool to be used in a classroom assignment at the beginning of the year.
2. By labeling the items yourself it allows the brain to better absorb the locations. 3. By using the correct
   colors to label these items it makes deciphering locations and reading the map easier for both you and your
   teacher.

2. You will be tested on your understanding of geography as it applies to regions throughout the world. You
   will also be completing a classroom assignment involving geography, current events, and writing.

   Items to be labeled

World Map (regions of the world)
   Choose a different color for each region (any color of your choice)
North America   South America   Europe   Middle East   Asia   Oceania

For the rest of the maps use the following color key: Cities = red, Countries = black, water bodies =
blue, and landforms = green

North America
New York City   USA   Canada
Atlantic Ocean   Cuba   Washington DC   Mexico
Pacific Ocean   Haiti   Guatemala   Panama Canal   Caribbean Sea
Panama   Gulf of Mexico   Mississippi River   Dominican Republic

South America
Brazil   Amazon River
Colombia   Chile   Atlantic Ocean   Pacific Ocean   Argentina
Uruguay   Peru   Paraguay   Bolivia   Venezuela
Ecuador

Asia
Hiroshima   Russia   Pacific Ocean   Nagasaki
Indian Ocean   China   Beijing   Japan
S. China Sea   India   Hong Kong   Yellow Sea
St. Petersburg   Hanoi   Sea of Japan
Moscow   N. Korea   S. Korea   Vietnam   Philippines
Cambodia   Indonesia
